GENERIC NAME	EXCEPTION
abacavir/lamivudine/zidovudine	Approved for use with an Infectious Disease
	consultation only
acetazolamide	Approved for Acute Care only with physician
	consultation.
acetylcholine chloride ophthalmic	Restricted
acyclovir injection	Approved in an institutional setting with
	physician consultation only.
adefovir dipivoxil	Approved for use with Gastroenterology or
	Infectious Disease consultation only
adenosine	Approved for CRNA use with physician
	consultation or ACLS protocol. Parenteral route
	approved in an institutional setting with
	physician consultation.
alatrofloxacin	Restricted
aldesleukin	Restricted
alglucerase	Restricted
alprostadil	Approved for use with physician consultation
	only.
altretamine	Restricted
amifostine	Restricted
amikacin injection	Approved for use in an institutional setting with
	a physician consultation
aminocaproic acid	Approved for use in an institutional setting with
	physician consultation
aminoglutethimide	Restricted
amiodarone	Approved for oral use only with a physician
	consultation. Parenteral route approved for use
	in an institutional setting with physician
	consultation or ACLS protocol.
amphetamine and mixed salts	Approved for Psych/MentalHealth use.
	Approved for CRNA's, Family, Adult, and
	Pediatric with physician consultation only.
amphotericin B	Parenteral route approved for NNP with
	physician consultation
amphotericin B Lipid	Restricted
amprenavir	Approved use with Infectious Disease
	consultation only.
anagrelide	Restricted
anastrozole	Approved for Oncology only
apomorphine	Approved for use with physician consultation
	only.
apraclonidine	Restricted
aprepitant	Approved for use in an oncology setting
	with physician consultation only.
arbutamine	Restricted
ardeparin	Restricted
arginine-vasopressin	Restricted
aripiprazole	Approved for Psych/Mental Health use; Other
	ARNPs approved for renewal of MD initiated
	prescription; Unrestricted use in nursing home
	setting
arsenic trioxide	Restricted

ascorbic acid injection	Parenteral route in an institutional setting only.
asparaginase	Restricted
atenolol injection	Parenteral use approved for institutional use
,	only, with physician consultation
atovaquone	Restricted
atracurium	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
	ARNP with physician consultation only.
atropine ophthalmic	Restricted
AU198	Restricted
baclofen injection	Approved for use in institutional settings with
DOC	physician consultation
BCG	Restricted
becaplermin benzocaine	Approved with physician consultation only
benzocaine	CRNAs: all routes, all drugs CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
benzphetamine	Restricted
benztropine	Approved for use by Psych/Mental Health
	ARNP. Other ARNPs on a renewal of physician
	initiated prescription only.
benzyl alcohol	CRNAs: all routes, all drugs
beractant	Approved for CRNA and Neonatal use only
betaine	Restricted
betamethasone injection	Parenteral route in an institutional setting only.
betaxolol ophthalmic	Restricted
bicalutamide	Approved in an Oncology only with physician consultation
bimatoprost	Restricted
biperiden	Approved for use by Psych/Mental Health
	ARNP. Other ARNPs on a renewal of physician
12 - P P.	initiated prescription only.
bivalirudin	Approved for institutional use with physician consultation only.
bleomycin	Restricted
bosentan	Restricted
botulinum toxin (ALL)	Approved for use by CRNA's with physician
Socialitati (ALL)	consult in a pain clinic setting or by approval of
	institutional Pharmacy and Therapeutic
	Committee and Credentialing Comm
bretylium	Approved for CRNA use with physician
	consultation or ACLS protocol.
brimonidine ophthalmic	Restricted
brinzolamide ophthalmic	Restricted
bromocriptine	Approved on a renewal of physician initiated prescription only
buffered intrathecal electrolyte/dextrose inj	Restricted
bumetanide injection	Approved in institutional settings.
bupivacaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
busulfan	Restricted

butamben picrate	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
C060	Restricted
cabergoline	Approved for use with a physician consultation
	only.
caffeine injection	Approve for Neonatal and CRNA use in an
	institutional setting
calcitriol injection	Parenteral route in an institutional setting only.
calcium ascorbate injection	Parenteral route in an institutional setting only.
calcium chloride injection	Parenteral route in an institutional setting only.
calcium gluceptate injection	Parenteral route in an institutional setting only.
calcium gluconate injection	Parenteral route in an institutional setting only.
calfactant	Restricted
capecitabine	Restricted
carbachol ophthalmic	Restricted
carbamazepine	All ARNP's approved for use as anticonvulsant
·	only.
	Psych/ Mental health ARNP approved for use
	as a mood stabilizer; all other ARNPs on
	renewal of physician initiated prescription only.
	CRNA use approved in an institutional setting
	for pain.
carbidopa	Approved on a renewal of physician initiated
	prescription only
carbidopa;levodopa	Approved on a renewal of physician initiated
	prescription only
carboplatin	Restricted
carmustine	Restricted
carteolol ophthalmic	Restricted
carvedilol	Approved with a physician consultation only
caspofungin acetate	Approved for use with infectious disease
	physician consultation only.
ceftazidime injection	Approved for Adult ARNPs in an institutional
<b>,</b>	setting with a physician consultation
cetrorelix	Approved for use with a physician consultation
	only.
chlorambucil	Restricted
chlordiazepoxide injection	Parenteral benzodiazepines administered IV
, ,	are limited to institutional use only
chloroprocaine	CRNAs: all routes, all drugs
•	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
chloroquine	Oral use approved for preventive treatment of
<b>'</b>	malaria only. Approved for parenteral route in
	institutional setting with physician consultation
	only.
chlorothiazide injection	Parenteral route in an institutional setting only.
chlorotrianisene	Approved for use with physician consultation
	only.
chlorpromazine injection	Approved for Psych/Mental Health ARNP.
, , . ,	Other ARNPs in an institutional setting only.
chromic phosphate P32	Restricted
	<u> </u>

chromitope sodium	Restricted
chromium chloride injection	Parenteral route in an institutional setting only
	and requires physician consultation
chymotrypsin ophthalmic	Restricted
cidofovir	Restricted
ciprofloxacin injection	Approved for persons over 12 years of age.
cisatracurium	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
	ARNP with physician consultation only.
cisplatin	Restricted
citric acid; sodium citrate	Approved for NNP use only.
cladribine	Restricted
clindamycin phosphate injection	Parenteral use approved for CNM and NNP's
	only
clonidine injection	Parenteral use approved for CRNA's with
	physician consultation
clozapine	Approved for unrestricted use by Psych/Mental
	Health ARNP. Approved for other ARNPs on
	renewal of physician initiated prescription only
CO57	Restricted
cocaine	CRNAs: all routes, all drugs
	All other ARNPs: topical use only
collagen implants	Restricted
copper injection	Parenteral route in an institutional setting only.
corticotropin	Approved for use in institutional settings with
	physician consultation only.
cosyntropin	Parenteral route in an institutional setting only.
CR51	Restricted
cupric sulfate injection	Parenteral route in an institutional setting only.
curare	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
and an atalata and the last	ARNP with physician consultation only.
cyclopentolate ophthalmic	Restricted
cyclophosphamide	Restricted
cyclosporine	Approved for use with a physician consultation
a da vahina	only.
cytarabine	Restricted
dactinomycin	Restricted
dalfopristin; quinupristin	Approved in an institutional setting only with an
danaparaid	Infectious Disease consultation
danaparoid	Approved for institutional use only.
dantrolene injection	Approved for use by CRNA in an institutional setting. All other ARNP's in an institutional
	setting with physician consultation.
deningazole enhabelmia	Restricted
dapiprazole ophthalmic daunorubicin	Restricted
decarbazine	Restricted
	Approved for institutional use only with
deferoxamine	physician consultation
delavirdine	Approved use with Infectious Disease
uciavifulite	consultation only.
democarium ophthalmic	Restricted
demecarium ophthalmic denileukin diffitox	Restricted
ucinicukin unnitux	VESITICIEN

desflurane	Approved for CRNA use only.
desmopressin acetate	Approved for use in an institutional setting with
accinicprocessin accitate	physician consultation.
dexamethasone ophthalmic	Restricted
dexrazoxane	Restricted
dextroamphetamine	Approved for Psych/MentalHealth use.
	Approved for CRNA's, Family, Adult, and
	Pediatric with physician consultation only.
diatrizoate meglumine	Approved for CRNA and Neonatal use only.
diatrizoate sodium	Approved for CRNA and Neonatal use only.
diazepam injection	Parenteral benzodiazepines administered IV
, ,	are limited to institutional use only
diazoxide	Approved for use in institutional setting with
	physician consultation only.
dibucaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
dichlorodifluoromethane	CRNAs: all routes, all drugs
	All other ARNPs: topical use only
diclofenac sodium ophthalmic	Restricted
didanosine, ddl	Approved use with Infectious Disease
	consultation only.
diethylpropion	Restricted
diethylstilbestrol	Restricted
digoxin injection	Parenteral use approved in institutional settings
	only or ACLS protocol.
diltiazem injection	Approved for use in an institutional setting with
	physician consultation or ACLS protocol.
dimenhydrinate injection	Parenteral route in an institutional setting only.
dinoprostone	Approved for CNM use only.
diphenhydramine injection	IV route in an institutional setting only. IM use
distriction and the classic	permitted all ARNP's.
dipivefrin ophthalmic	Restricted
disopyramide	Approved for oral use only with a physician
	consultation. Parenteral route approved only in an institutional setting with physician
	consultation.
divalproex sodium	Approved for use by Psych/Mental Health
divalproex socium	ARNP. All other ARNP limited to renewal of
	physician prescription only.
dobutamine	Approved for parenteral route in an institutional
	setting with physician consultation only.
docetaxel	Restricted
dofetilide	Approved with physician consultation only
Dopamine	Approved for use in an institutional setting with
	physician consultation or ACLS protocol.
dorzolamide ophthalmic	Approved for renewal of physician written RX in
	an institutional setting.
doxacurium	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
	ARNP with physician consultation only.
doxorubicin	1_
doxordoloiri	Restricted
dronabinol droperidol	Restricted Restricted Institutional use only

dyclonine    CRNA's: all routes, all drugs   All other ARNP's: topical use only   echothiophate ophthalmic   Restricted

FE59	Restricted
fenoldopam	Approved for use in an institutional setting only
fentanyl citrate PF	Unrestricted use for CRNA's and NNP's
	only. Approved for all other ARNP's for
	treatment of oncology and palliative care
	patients only.
fentanyl injection	Unrestricted use approved for CRNA's and
	NNP's only. Approved for all other ARNP's
	practicing in an oncology or palliative care
	setting only.
fentanyl patch	Unrestricted use for CRNA's only. Approved
	for the treatment of oncology and palliative
	care patients by ARNP's who have expertise
	in treating these patients. All other ARNP's approved with physician
	consultation only.
ferric ammonium citrate	Restricted
ferumoxides	Approved for CRNA and Neonatal use only.
ferumoxsil	Approved for CRNA and Neonatal use only.
filgrastin	Approved for use in an Oncology setting and
	requires a physician consultation.
flecainide injection	Approved for use in an institutional setting with
nosamias injection	physician consultation or ACLS protocol.
floxuridine	Restricted
fludarabine	Restricted
fludeoxyglucose F18	Restricted
fludrocortisone	All routes approved for NNP use. Parenteral
	route approved in institutional settings with
	physician consultation
fluorometholone ophthalmic	Restricted
fluorouracil (5-FU) injection	Restricted
fluoxymesterone	Approved for use with a physician consultation
	only.
flurbiprofen ophthalmic	Restricted
flutamide	Approved in an Oncology setting only with a
	physician consultation.
folic acid injection	Approved for use in an institutional setting
follitropin r-FSH	Approved for use with a physician consultation
	only.
fomepizole	Approved for institutional use only with
	physician consultation
fomivirsen ophthalmic	Restricted
foscarnet	Approved in an institutional setting with
	physician consultation only.
fosphenytoin	Restricted
fulvestrant	Restricted
furosemide injection	Approved for use in institutional settings
GA67	Restricted
gadodiamide	Approved for CRNA and Neonatal use only.
gadopentetate dimeglumine	Approved for CRNA and Neonatal use only.
gadoteridol	Approved for CRNA and Neonatal use only.
ganciclovir	Restricted

ganirelix	Approved for use with a physician consultation
actiflavacia injection	only.  Approved for use in an institutional setting with
gatifloxacin injection	physician consultation only
gemcitabine	Restricted
gentuzumab, ozogamicin	Restricted
glatiramer injection	Restricted
gonadorelin	
	Approved for use with a physician consultation only.
goserelin	Approved in oncology setting with physician consultation only
granisetron injection	Approved for CRNA and CNM use. Approved in oncology setting. Other ARNPs approved for institutional use with physician consultation.
halofantrine	Restricted
halothane	Approved for CRNA use only.
HG197	Restricted
HG203	Restricted
histrelin	Approved for use with a physician consultation only.
homatropine ophthalmic	Restricted
human albumin microspheres	Approved for CRNA and Neonatal use only.
hydralazine injection	Approved for use in an institutional setting with
	physician consultation only.
hydroxocobalamin injection	Approved for parenteral route in an institutional setting only.
hydroxyamphetamine ophthalmic	Restricted
hydroxyurea	Restricted
1125	Restricted

IN113M	Restricted
indinavir	Approved use with Infectious Disease
	consultation only.
interferon Alfa	Approved NNP use only
iodine injection	Approved for parenteral route in an institutional
	setting only.
iodipamide meglumine	Approved for CRNA and Neonatal use only.
iodixanol	Approved for CRNA and Neonatal use only.
iohexol	Approved for CRNA and Neonatal use only.
iopamidol	Approved for CRNA and Neonatal use only.
iopanoic acid	Approved for CRNA and Neonatal use only.
iopromide	Approved for CRNA use only
iothalamate meglumine	Approved for CRNA and Neonatal use only.

iothalamate sodium	Approved for CRNA and Neonatal use only.
ioversol	Approved for CRNA and Neonatal use only.
ipodate sodium	Approved for CRNA and Neonatal use only.
IR192	Restricted
irinotecan	Restricted
iron dextran	Approved for parenteral route in an institutional
Iron dextrain	setting only.
iron sucrose	Approved for parenteral route in an institutional
lion sucrose	setting only.
isocarboxazid	Approved for Psych/MentalHealth use only
isoflurane	Approved for CRNA use only.
isoniazid, INH	Approved for preventative therapy only.
isoproterenol injection	Approved for use in an institutional setting with
	physician consultation or ACLS protocol.
isosulfan blue	Approved for CRNA and Neonatal use only.
isotretinoin	Restricted
itraconazole oral	Requires physician consultation
ivermectin	Restricted
K42	Restricted
K43	Restricted
ketamine	Approved for CRNA use only.
ketorolac injection	Approved for use in institutional settings only.
ketorolac injection ketorolac ophthalmic	Restricted
KR81M	Restricted
lamivudine, 3TC	Approved use with Infectious Disease
lamivudine, 310	consultation only.
lamivudine, 3TC;zidovudine	Approved use with Infectious Disease
	consultation only.
latanoprost	Approved for renewal of physician prescription
	in an institutional setting.
latanoprost;timolol	Restricted
lepirudin	Restricted
letrozole	Approved for Oncology use only and limited to
	renewal of physician prescription
leucovorin calcium injection	Approved for use in an institutional setting with
	physician consultation only
leuprolide	Approved for use with physician consultation
levamisole	Restricted
levobetaxolol ophthalmic	Restricted
levobunolol ophthalmic	Restricted
levobupivacaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
levocabastine ophthalmic	Approved for use by NNP, Family, Adult, and
	Pediatric only.
levodopa	Approved on a renewal of physician initiated
	prescription only
lidocaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
linovolid	All other ARNPs: local anesthetics only
linexolid	Approved for institutional use with Infectious
	Disease consultation only.

lithium	Approved for use by Psych/Mental Health
	ARNPs. All other ARNPs on renewal of
	physician initiated prescription only.
liver, crude injection	Approved for parenteral route in an institutional
In any office of	setting only.
lomustine	Restricted
lopinavir/ritonavir	Use approved with Infectious Disease
In re-en encipie etien	consultation only
lorazepam injection	Unrestricted use for CRNAs only. Approved for parenteral route in an institutional setting
	and in an oncology outpatient setting with
	physician consultation for all other ARNPs.
loteprednol etabonate	Restricted
lumenhance solution	Restricted
Lyme Disease Vaccine	Restricted
magnesium chloride injection	Approved for parenteral route in an institutional
Imagnesium chionde injection	setting only.
magnesium sulfate injection	Approved for parenteral use in an institutional
Inagriculari sanate injection	setting only.
mangofodopir trisodium	Approved for CRNA and Neonatal use only.
mannitol	Parenteral route approved in institutional
	settings.
mechlorethamine	Restricted
medrysone.ophthlamic	Restricted
mefloquine	Oral use approved for preventive treatment of
menoquine	malaria only
megestrol	Approved in an Oncology setting with physician
	consultation. Unrestricted use in a long term
	care setting.
melphalan	Restricted
mephentermine	Approved for parenteral route in an institutional
	setting with physician consultation only.
mepivacaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
mercaptopurine	Restricted
meretek UBT Kit w/pranactin	Restricted
mesna	Restricted
metaraminol	Approved for parenteral route in an institutional
	setting with physician consultation only.
methimazole	Restricted
methocarbamol injection	Approved for use in institutional settings with
	physician consultation
methohexital	Approved for CRNA use only.
methotrexate	Approved for Oncology and Rheumatology with
	physician consultation only
methoxamine	Approved for parenteral route in an institutional
	setting with physician consultation only.
methoxyflurane	Approved for CRNA use only.
methyldopate injection	Approved for use in an institutional setting with
	physician consultation only
methylergonovine	Approved for use by CNM only
methylphenidate	Approved for Psych/ MentalHealth, CRNA's,
	Family, Adult, and Pediatric use

methylprednisolone ophthalmic	Restricted
methyltestosterone	Approved for use with a physician consultation
	only.
metipranolol ophthalmic	Restricted
metoclopramide injection	Approved for use in an oncology setting.
	Approved for CRNA and CNM use.
	Approved for institutional use with a physician
	consultation.
metocurine	Approved in an institutional setting with
	physician consultation only.
metoprolol injection	Approved for use in an institutional setting with physician consultation only
metronidazole injection	Parenteral route requires physician consultation
mexiletine HCI	Approved for CRNA use only.
mezlocillin	Approved for use in an institutional setting with
ITTEZIOCIIIIT	a physician consultation
mibefradil	Restricted
midazolam injection	Approved for CRNA and NNPs only.
<u> </u>	All other ARNP's restricted to use in institutional
	setting with physician consultation
midodrine injection	Approved for use in an institutional setting with
	physician consultation only.
mifepristone	Permitted under the supervision of a physician
	who meets the federal prescriber's agreement
mitomycin	Restricted
mitotane	Restricted
mitoxantrone	Restricted
mivacurium	Approved for unrestricted use by CRNA. Approved in an institutional setting for all other ARNP with physician consultation only.
molybdenum	Approved for oral use by ARNP. Parenteral route in an institutional setting and requires physician consultation
moricizine	Approved for oral use only with a physician consultation. Parenteral route approved only in an institutional setting with physician consultation.
moxifloxacin injection	Approved for use in an institutional setting with physician consultation only
multivitamins injection	Approved for parenteral route in an institutional setting only.
mycophenolate mofetil	Restricted
NA22	Restricted
nafarelin	Approved for use with a physician consultation only.
nalbuphine	Approved for CRNA and CNM's in an institutional setting only
nandrolone	Approved for use with a physician consultation only.
natamycin ophthalmic	Restricted
nelfinavir	Approved use with Infectious Disease consultation only.
nesiritide injection	Approved for institutional use with physician consultation only.

nevirapine	Approved use with Infectious Disease
Thevirapine	consultation only.
nicardipine injection	Approved for use in an institutional setting with physician consultation only
nilutamide	Approved in an Oncology only with physician consultation
nitisinone	Restricted
nitric oxide	Approved for NNP in an institutional setting only with a physician consultation
nitroglycerin IV	Approved for use in an institutional setting with physician consultation only
nitroprusside	Approved for use in an institutional setting with physician consultation only
nitrous oxide	Approved for CRNA use only.
norepinephrine injection	Approved for use in an institutional setting with physician consultation only.
olanzapine	Approved for Psych/Mental Health use; Other ARNPs approved for renewal of MD initiated prescription; Unrestricted use in nursing home setting
ondansetron	Approved for CRNA and CNM use. Approved in oncology setting. Other ARNPs approved for institutional use with physician consultation.
orlistat	Approved for Adult, Family, and Geriatric use only
orphenadrine injection	Approved for use in institutional settings with physician consultation
oxaliplatin	Restricted
oxandrolone	Approved for use with a physician consultation only.
oxymetholone	Approved for use with a physician consultation only.
oxytocin	Approved for use by CNM only
P32	Restricted
paclitaxel	Restricted
palivizumab	Approved for Neonatal ARNP use and requires physician consultation
pamidronate IV	Approved for use with physician consultation only.
pancuronium	Approved for unrestricted use by CRNA. Approved in an institutional setting for all other ARNP with physician consultation only.
papaverine injection	Approved for use in an institutional setting with physician consultation only
paricalcitol injection	Parenteral route in an institutional setting only.
pegaspargase	Restricted
pegvisomant	Restricted
pentazocine;naloxone hcl injection	Approved for CRNA use only
pentetreotide	Approved for CRNA and Neonatal use only.
pentostatin	Restricted
perflutren lipid	Restricted
pergolide	Approved on a renewal of physician initiated prescription only

perphenazine injection	Approved for parenteral route in institutional setting only.
phenelzine	Approved for Psych/ MentalHealth use only
phentolamine mesylate injection	Approved for use in an institutional setting with physician consultation only
phenylephrine injection	Unrestricted use for CRNA's only. Approved for use in an institutional setting with physician consultation only for all other ARNP's.
phenytoin injection	Approved for use in an institutional setting with physician consultation or ACLS protocol.
phytonadione injection	Approved for parenteral use in an institutional setting only.
pilocarpine ophthalmic	Restricted
pioglitazone	Approved for Adult, Family, and Geriatric use only
pipecuronium	Approved for unrestricted use by CRNA. Approved in an institutional setting for all other ARNP with physician consultation only.
plicamycin	Restricted
polyvinyl chlorous	Approved for CRNA and Neonatal use only.
poractant	Approved for NNP use only
porfimer	Restricted
potassium perchlorate	Approved for CRNA and Neonatal use only.
potassium phosphate injection	Approved for parenteral use in an institutional setting only.
pramipexole	Approved on a renewal of physician initiated prescription only
pramoxine	CRNAs: all routes, all drugs CNMs: pudendals permitted All other ARNPs: local anesthetics only
prednisolone ophthalmic	Restricted
prilocaine	CRNAs: all routes, all drugs CNMs: pudendals permitted All other ARNPs: local anesthetics only
primaquine	Restricted
procainamide injection	Approved for use in an institutional setting with physician consultation or ACLS protocol.
procaine	CRNAs: all routes, all drugs CNMs: pudendals permitted All other ARNPs: local anesthetics only
procarbazine prochlorperazine injection	Restricted  Approved for use in an oncology setting. Approved for CRNA and CNM use. Approved for institutional use with a physician consultation.
procyclidine	Approved for use by Psych/Mental Health ARNP. Other ARNPs on a renewal of physician initiated prescription only.
promethazine injection	Approved for parenteral use in an institutional setting only
propafenone	Approved for oral use only with a physician consultation. Parenteral route approved for use in an institutional setting with physician consultation or ACLS protocol.

proparacaine ophthalmic	Approved for diagnostic and procedural use only.
propofol	Approved for CRNA use. Approved for Acute Care ARNP with a physician consultation only.
propoxycaine	CRNAs: all routes, all drugs CNMs: pudendals permitted All other ARNPs: local anesthetics only
propranolol injection	Approved for use in an institutional setting with physician consultation only
propylthiouracil	Restricted
pyrazinamide	Restricted
pyridoxine injection	Approved for parenteral use in an institutional setting only.
pyrimethamine	Oral use approved for preventive treatment of malaria only
pyrimethamine and sulfadoxine	Oral use approved for preventive treatment of malaria only
quetiapine	Approved for Psych/Mental Health use; Other ARNPs approved for renewal of MD initiated prescription; Unrestricted use in nursing home setting
quinidine gluconate injection	Parenteral route approved only in an institutional setting with physician consultation.
quinidine polygalacturonate injection	Parenteral route approved only in an institutional setting with physician consultation.
quinidine sulfate injection	Parenteral route approved only in an institutional setting with physician consultation.
remifentanil	Approved for CRNA use only
respiratory syncytial virus; immunglobulin	Approved for Neonatal ARNP use and requires physician consultation
ribavirin	Approved for NNP use only.
riluzole	Restricted
risperidone	Approved for Psych/Mental Health use; Other ARNPs approved for renewal of MD initiated prescription; Unrestricted use in nursing home setting
ritodrine	Approved for CRNA use only in an institutional setting with a physician consultation
ritonavir	Approved use with Infectious Disease consultation only.
rituximab	Restricted
rocuronium	Approved for unrestricted use by CRNA. Approved in an institutional setting for all other ARNP with physician consultation only.
ropinirole	Approved on a renewal of physician initiated prescription only
ropivacaine	CRNAs: all routes, all drugs CNMs: pudendals permitted All other ARNPs: local anesthetics only
rosiglitazone	Approved for Adult, Family, and Geriatric use only
sacrosidase	Restricted
samarium sml153 lexidronam	Approved for CRNA and Neonatal use only.

saquinavir	Approved use with Infectious Disease consultation only.
scopolamine ophthalmic	Restricted
SE75	Restricted
selegiline	Approved on a renewal of physician initiated
	prescription only
selenium injection	Approved for parenteral use in an institutional setting only.
sevoflurane	Approved for CRNA use only
sodium acetate 32.8%	Approved for parenteral route in an institutional setting only.
sodium acetate 16.4%	Approved for parenteral route in an institutional setting only.
sodium ascorbate	Approved for parenteral use in an institutional setting only.
sodium chloride 14.6%	Approved for parenteral route in an institutional setting only.
sodium chloride 23.4%	Approved for parenteral route in an institutional setting only
sodium chloride 3%	Approved for parenteral route in an institutional setting with physician consultation only.
sodium chloride 5%	Approved for parenteral route in an institutional setting only.
sodium iodide 131	Restricted
sodium oxybate	Restricted
sodium phenylbutyrate	Restricted
sodium phosphate injection	Approved for parenteral use in an institutional setting only.
sodium phosphate P32	Approved for CRNA and Neonatal use only.
sodium polystyrene sulfonate	Approved for use in an Institutional setting with physician consultation
somatrem	Restricted
somatropin	Restricted
stanozolol	Approved for use with a physician consultation only.
stavudine d4T	Approved use with Infectious Disease consultation only.
streptozocin	Restricted
strontium-89 chloride	Approved for CRNA and Neonatal use only.
succimer	Approved for Pediatric and Family ARNP with physician consultation
succinylcholine	Approved for unrestricted use by CRNA. Approved in an institutional setting for all other ARNP with physician consultation only.
sufentanil injection	Approved for CRNA use.
surfactant-human	Approved for CRNA and Neonatal use only
tacrolimus oral	Restricted
tartaric acid	Approved for CRNA and Neonatal use only.
TC99m	Restricted
teniposide	Restricted
tenofovir disoproxil fumarate	Approved with Infectious Disease consultation only.
terbutaline injection	Approved for use in an institutional setting only.

testolactone	Restricted
testosterone	Approved for use with a physician consultation only.
tetracaine	CRNAs: all routes, all drugs
	CNMs: pudendals permitted
	All other ARNPs: local anesthetics only
tetracaine ophthalmic	Approved for diagnostic and procedural use
	only.
thalidomide	Restricted
thallous CL TL 201	Restricted
thiamine injection	Approved for parenteral use in an institutional
	setting only.
thiethylperazine	Restricted
thioguanine (TG)	Restricted
thiopental	Approved for CRNA use only.
thioridazine	Approved for use by Psych/mental health.
	Other ARNPs on renewal of physician initiated
	prescription only.
thiotepa	Restricted
TI201	Restricted
timolol ophthalmic	Restricted
tobramycin dexamethasone	Approved for <b>otic</b> use only
tobramycin inhalation solution	Approved for use in an institutional setting with
,	physician consultation only
tobramycin injection	Approved in an institutional setting only
tocainide	Approved for use in an institutional setting with
	physician consultation only
tolazoline	Approved for use in an institutional setting with
	physician consultation only
tolcapone	Restricted
topotecan	Restricted
toremifene	Restricted
torsemide injection	Approved for use in institutional settings.
tranylcypromine	Approved for Psych/MentalHealth use only
trastuzumab	Restricted
travoprost	Restricted
treprostinil sodium	Restricted
tretinoin	Approved for topical dermatological use only.
triamcinolone injection	Approved for all routes of administration by
thamemore injection	NNP and CRNA only. Approved for use in
	institutional settings with physician consultation
	by all ARNP
triflupromazine injection	Approved for parenteral use in an institutional
	setting only.
trifluridine ophthalmic	Restricted
trihexyphenidyl	Approved for use by Psych/Mental Health
	ARNP. Other ARNPs on a renewal of physician
	initiated prescription only.
trimethaphan	Approved for use in an institutional setting with
	physician consultation only
trimethobenzamide injection	Approved for use in an oncology setting.
umouroson_amido injoonori	Approved for CRNA and CNM use.
	Approved for institutional use with a physician
	consultation.

trimetrexate	Restricted
triptorelin	Approved for use with a physician consultation
	only.
tropicamide ophthalmic	Restricted
trovafloxacin	Restricted
tubocurarine	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
	ARNP with physician consultation only.
tyropanoate	Approved for CRNA and Neonatal use only.
unoprostone isopropyl	Restricted
urea injection	Approved for use in an institutional setting.
ursodiol	Topical use approved all ARNP. Parenteral
	route approved in an institutional setting. NNP's
	approved for all routes
valganciclovir	Restricted
valproate sodium	Approved for all ARNP's in an institutional
	setting.
	Approved for unrestricted use by CRNA and Psych/Mental Health ARNP.
	Outpatient use limited to renewal of physician
	prescription in only.
valproic acid	Approved for all ARNP's in an institutional
valproic acid	setting.
	Approved for unrestricted use by CRNA and
	Psych/Mental Health ARNP.
	Outpatient use limited to renewal of physician
	prescription in only.
valrubicin	Restricted
vancomycin injection	Approved for use in an institutional setting with
	physician consultation only
vasopressin	Approved for use with ACLS protocol.
vecuronium	Approved for unrestricted use by CRNA.
	Approved in an institutional setting for all other
	ARNP with physician consultation only.
verapamil injection	Approved for use in an institutional setting with
	physician consultation or ACLS protocol.
verteporfin	Restricted
vinblastine	Restricted
vincristine	Restricted
vinorelbine	Restricted  Parenteral use approved for institutional setting
vitamin A injection	Parenteral use approved for institutional setting with physician consultation only.
voriconazole	Restricted
XE133	Restricted
YB169	Restricted
zalcitabine ddC	Approved use with Infectious Disease
Zaiottabilio ado	consultation only.
zidovudine	Oral routes approved for all ARNPs for
	preventive treatment. Treatment of HIV requires
	an Infectious Disease consultation. Parenteral
	route approved in an institutional setting
zinc sulfate injection	Parenteral route in an institutional setting only.

	Approved for Psych/ Mental Health ARNP. Other ARNP use limited to renewal of physician
	prescription only.
zoledronic acid	Approved with physician consultation only.

#### \*ADDENUM

Advanced Registered Nurse Practitioner's are exempt from restrictions imposed by the Joint Health Council Formulary when they are participating in a Clinical Trial administered by an institutional IRB, and are prescribing a medication to a patient enrolled in that Clinical Trial according to its guidelines and protocol.
